

# Process Sales Anywhere with **SwipeSimple**

## Accept EMV Chip Card Payments on the Go

SwipeSimple is a mobile solution for merchants to quickly and securely accept credit card payments from any smartphone or tablet. Just download the SwipeSimple app and your smart device becomes a secure, full-featured and easy-to-use payment terminal that you can use wherever you go.

## A Payment Terminal that Fits in Your Pocket

The SwipeSimple card reader is small, but mighty. You get:

**Peace of Mind** – SwipeSimple readers encrypt card information before it enters the mobile device, providing protection of sensitive data.

**Compatibility** – It works with any device, that has an audio jack, and supports both tablets and smartphones, so it's a solution everyone can use.

**Flexibility** – You can accept many forms of payment, including EMV cards, securely anytime, anywhere – even when you're offline.

## Resources to Scale Your Business

The SwipeSimple app does more than just process transactions. There are robust settings that allow you to:

- ✓ Tailor a menu that reflects your business by adding or editing item details
- ✓ Adjust sales tax rates and tip prompts to simplify the check out process
- ✓ Stay on brand with customized receipts that can be sent via text or email
